## FUTURO NEWS

Congratulations Jerry Free on the sale of 25 Futuro's in Missouri. It should be the most talked about resort in the state. We also saw your feature story in the Kansas City Star on the new eighth floor of a hotel that will consist of four Futuro's. With all those sales we may soon have the first Futuro millionaire.

We received many compliments on the outstanding job Wes Fotsch and Leonard Greenwood did on the Futuro exhibit at the Illinois State Fair. The financial reward from the thousands of people who toured the Futuro was well earned.

Expect to see big things at Wisconsin Dells when Charles Van Wie completes his century 21 Futuro City. Charlie is looking for many futuristic ideas and inventions...so if anyone can contribute contact this office and the information will be sent on.

Have you seen the excellent article in the September issue of Playboy Magazine. Talked to Tom Owens the author and he said it is receiving one of his top responses. Another leading magazine will be doing an article this fall and there will also be national promotion done by some leading food and clothing companies.

Welcome to Chuck Mohn owner of Trend Kitchen Supply in Peoria Ill. Chuck engineered a beautiful Futuro display at Exposition Gardens.

We will soon see a Futuro Park by George Buck in Joliet and a motel hide away by Jerry Kraus owner of the Praire Motel in Praire Du Chien, Wis. We also have a big surprise planned for Minneapolis.

If you get near Waukegan, Ill. be sure and stop in to see Dr. Altenberg at 1709 Washington Av. He has the most unique back yard you will ever have occasion to see. Most unusual is the fact that it was all made by the Doctor. Ask him what his intentions are for his Futuro? you will leave quite amazed.

Because of the tremendous response from the Playboy article and the other publications we are in dire need for Futuro dealers to handle the customers requests. The following special offer is now available and is subject to change without notice.
